& Magic

SUMMER ART CAMP  
& PRE-TEEN  
STUDIOS 2017

JUNE 12 - AUG. 25  
ONE WEEK SESSIONS | AGES 4 - 12

*in* HAVERFORD

CALLING ALL  
EXPLORERS, PIONEERS,  
AND DREAMERS

Fire up your imagination,  
call on your creativity,  
and join us for an artistic  
journey of discovery and  
magic this summer!

## SUMMER ART CAMP: ANYTHING BUT ORDINARY

Our Art Camp experience is anything but ordinary. During each week-long session, young artists will be introduced to a variety of age-appropriate materials, techniques, and concepts through imaginative projects inspired by the weekly theme and designed to tap into each child's innate creativity. Creating alongside actual professional artists in actual artist studios, campers will explore drawing, painting, ceramics, jewelry and metals, printmaking, digital media, and more, all while cultivating skills like critical thinking and problem-solving. On Fridays, it's time to shine as we celebrate our journey with our new friends at the Art Party and exhibition in the award-winning galleries.

### Camp Structure

Art Camp for 4 year olds is offered in half days from 9 - 11:45 am. Children ages 5-12 can register for a full day of camp from 9 am-3:30 pm, or half day camp from 9-11:45 am, or 12:45-3:30 pm. Need more coverage? Before care and after care are available to extend the day from 8 am - 6 pm, and lunch care is available for morning half day campers from 11:45 am-12:45 pm.

Camp is broken down into age groups with low teacher-to-student ratios to ensure individualized learning. Our vibe? Supportive, social, encouraging...and most of all fun. It is summer, after all!

### The Art of Exploring: Nature, Myth & Magic

Long live the curious! From enchanted forests where hobbits and gnomes dwell, to sunken treasure deep under the sea, to the far reaches of space, this year's theme opens the door to an amazing summer of discovery and art-making. Whether our inspiration is rooted in the natural or supernatural, we'll uncover new facts about these worlds as we create and make new friends. Each week a new adventure awaits you.

“SEE YOU  
NEXT  
SUMMER!”

“The projects were unique and more than I expected from a summer camp. Some of the pieces are truly a piece of art that I am planning to save and display. My kids had a great time. They could not wait to go to the camp every day.”

-Jen, parent of camper

# PRE-TEEN STUDIOS: AGES 10-12

Developed specifically for our older campers, Pre-Teen Studios offer focused, in-depth learning and experimentation with a single medium under the guidance of a professional Teaching Artist. Sound serious? Seriously fun! The projects are cooler, the techniques more advanced, and the learning a little faster paced. Pre-Teen Studios culminate each week with a Friday Art Party and gallery exhibition to celebrate their creativity.

Select morning and afternoon week-long intensives to make up a full day, or chose a morning or afternoon half day intensive only. Full day camp rates apply when registering for both morning and afternoon intensives, which includes lunch care. No experience needed!

## Drawing & Painting

It seems simple - putting pen to paper - but drawing is the foundation of art! Explore the fundamentals of drawing and painting through a variety of 2-D media and refine perspective skills as you move from black and white to color. This class will instruct and inspire you to improve your vision and perception.

## Drawing: Sketchbook Techniques

Take your doodles to the next level and learn to quickly capture ideas and images while creating a book about the way that you see the world. We'll cover observational drawing, gesture drawing, telling a story with pictures, and incorporating text.

## Cartooning: The Art of the Graphic Novel

Learn how to tell a story in words and pictures, and then create the first page of your adventure. Explore the world you live in and every world you can imagine.

## Science Fiction & Fantasy Illustration

Create fantastical creatures and epic worlds in pencil, pen, paint, and ink.

## Fabric Arts

Bring out your inner-designer as you experiment with fabric, thread, yarn, and other materials. Screenprint your own t-shirt and bags, batik or paint with wax, and design, sew, and build your own costumes. Create art you can wear and feel.

## Collage

Combine many worlds into one with your own unique creation. There's beauty and depth in the layers.

## Ceramics

'Round and 'round it goes! Learn how to turn a clump of clay into something that is both beautiful and functional on the potter's wheel. A pre-teen favorite!

## Glass Fusing

Let's melt some glass! Learn how to use glass to explore light, transparency, layering, and color, and create shapes and forms using techniques like kiln carving and slumping. We will create impressive-looking tiles, coasters, small dishes, medallions, and wearable art that you will be proud to say you made yourself.

## Graffiti Art

Express yourself! We'll look at the history and present form of this eclectic medium as we create powerful works of art using stencils, lettering, montage, painting, and more. Then, learn how artists take it from the street to the world of art and media.

## Metalsmithing: Jewelry & Metals

Bend, twist, saw, and melt metals in our new jewelry studio. Before your very eyes, you'll turn metals and other 3-D media into sculptural or wearable works of art.

## Mosaics

Mirror, mirror on the wall...Create a colorful mosaic mirror using colored glass, stone and other materials! Learn how to safely cut pottery and glass to create intricate designs and then grout them. Individual files and more complex mosaics will be covered as each student expands their creativity with design and color.

## Photography & Digital Art

Step beyond the camera phone and take your photography to a whole new level as you learn to take *picture perfect* images while learning the fundamentals of digital photography and graphic art. Main Line Art Center's digital cameras are shared among campers; please bring a thumb drive to save your own work.

## Sculpture Safari & Sculpture in the Future

Sculpt your way to an awesome summer! Create animals, environments, machines and more. Mold from your imagination and learn how to bring your 2-D designs to life using clay and mixed media.

## Stop Animation

You'll be in the director's chair as we create a collaborative short video using stop motion animation that you'll be excited to share with friends and family. In the process, we'll explore the A-Z of stop motion techniques which may include claymation, cut paper, collage, and drawing.

## Photo Encaustics

Break free from the frame! Turn photographic prints that you've taken or found into mixed-media masterpieces as you explore the boundaries of image making. Photo encaustics combines photography with the ancient art of painting using beeswax and pigments. Collage, sand, paint, and draw your way to a surprising work of art.
